[Ex. 4 - CBI]

Great Job! I know with the SEMS unplanned outage, finalizing was not easy. Thanks for not considering failure an option and sticking with it. I'll need to send a note of appreciation to the National SEMS Support Team for the help they provided.

Thanks,

Paul

=====

All,

Regarding the Dimock Residential Groundwater Site Removal AR:

The AR has been finalized.
The content has been uploaded to ARWeb.
A packet is going out to the repository tonight for delivery tomorrow in time for the public comment period.
The AR has been printed and can be found in our Regional AR Reading Room.

Please let me know if you have any questions.

Thanks,
